

CULTURE & GENDER

CRACKING THE GLASS-CULTURAL CEILING: Future-proofing your business in the 21st Century

Australian organisations with culturally and gender balanced leadership teams are well positioned to thrive in today's diverse and complex operating environments. Industry research shows that leadership teams that are gender balanced and have a good mix of people from different cultural backgrounds drive organisational performance.

Although organisations are increasingly investing in building culturally diverse and gender balanced leadership profiles, culturally diverse women are notably under-represented in leadership ranks, both here in Australia and internationally.

This interactive and evidence-based knowledge program utilises DCA's latest research findings to explore why culturally diverse female talent is "locked out" of leadership positions in Australia and provides practical tools for participants to "unlock" that talent with a framework for action.

WHO SHOULD ATTEND

- Diversity and HR practitioners
- Business leaders and line managers
